

RESEARCH PROJECTS

- 1.0 Application of a magnetic fields in the environment University of Liverpool and University of Edinburgh (British Council) 1990
- 1.1 Nitrification / Denitrification WWTP Siggerwiesen-Salzburg (Austrian Research Promotion Agency) 1993 New biological products for environmental protection (Austrian Research Promotion Agency) 2000
- 1.2 Wastewater Treatment with electric cell . (Austrian Research Promotion Agency). 2002
- 1.3 Wastewater treatment with plant cell (Austrian Research Promotion Agency) 2003
- 1.5 Nanotechnology Products for Wastewater Treatment (Research Funding Salzburg Country.) 2006
- 1.4 Bioleaching (Research Funding Salzburg County) 2008-2009
- 1.6 Frequency based mixing system (Research Funding Salzburg County) 2015

2. PATENTS:

- WO 0026466 Vegetable material based preparation for reducing and /or preventing slime
- WO 03016226 Additives for stabilizing biomass
